Simulation

**Modularity
Commonality
Readiness**

« Providing **calibre interchangeability** and both **manned/unmanned** configurations, the Cockerill® 3000 Series represents a unique answer to our customers' **present and future requirements**. Its **modularity** leads to a high **commonality** in terms of **training, maintenance** and **spare parts**, significantly enhancing manpower and system **readiness**. Moreover, these advantages optimize **total cost of ownership**. »
